

EASY AUTOMOTIVE IS READY TO KEEP YOUR CAR DEPENDABLE ALL THROUGH FALL AND BEYOND!

DON'T LET A WEAK BATTERY LEAVE YOU STRANDED THIS FALL

As the Bay Area heads into cooler November nights, your car's battery works harder than you might think. Even though we don't get freezing winters like back east, a simple drop into the 40s can slow the chemical reactions inside your battery. That means the same battery that started your car easily on a warm afternoon could fail after sitting overnight in the cold.

Most car batteries last 3-5 years, but many drivers don't know exactly how old theirs is until it's too late. A weak battery doesn't always give you a warning — sometimes the only sign is a no-start in a rainy parking lot. That's why this is the perfect time of year to have your battery tested. A quick check can tell us if it's still strong, or if it's time for a replacement before holiday travel and winter weather hit.

Shop Tip: If you can't remember when your battery was last replaced, it's worth a quick test. It takes just a few minutes and can save you from a big headache down the road. Easy Automotive is happy to test your battery for you — just stop by and we'll make sure you're ready for the season.

COMMUNITY SPOTLIGHT: SAN FRANCISCO-MARIN FOOD BANK

This month, we're grateful to highlight the San Francisco-Marin Food Bank and the incredible work they do in our community. Their mission is to end hunger in San Francisco and Marin, ensuring everyone has access to nutritious, culturally appropriate food and a strong network of support.

Over the years, they've worked tirelessly to transform services, advocate for systemic change, and create programs that help participants thrive. By addressing both the hunger we see today and its root causes, they exemplify the power of community collaboration.

We're thankful for organizations like this — and for the people behind them — who dedicate themselves to making our community stronger, healthier, and more equitable.
